Matte Paper

• HP VIVERA PIGMENT INK • HP VIVERA DYE INK • HP UV INK • HP DYE INK

**HP PREMIUM INSTANT-DRY SATIN PHOTO PAPER (260 g/m<sup>2</sup>)** • • •

This premium, fast-drying satin photo paper is designed to reduce glare from indoor lights and deliver unrivaled image quality and versatility.

- Ideal for high-volume, high-quality photographic applications with a satin finish, such as commercial photo displays, mounted advertisements, posters, presentations, photo enlargements, art reproductions and high-color GIS applications
- Compatible with HP Designjet Z6100 Printer series and HP Designjet Z3200/Z3100/Z2100 Photo Printer series—all with HP Vivera Pigment Inks; also compatible with HP Designjet 5500/5000 Printer series with pigment/UV and dye inks and HP Designjet 4500/4000 Printer series with dye inks

**HP PREMIUM INSTANT-DRY GLOSS PHOTO PAPER (260 g/m<sup>2</sup>)** • • •

This paper offers superb image quality and versatility. Its instant-dry finish saves time, increases productivity and allows for worry-free lamination.

- Ideal for high-volume, high-quality photographic applications with a gloss finish, such as photo displays, presentations, posters, photo enlargements, art reproductions and high-color GIS applications
- Compatible with HP Designjet Z6100 Printer series and HP Designjet Z3200/Z3100/Z2100 Photo Printer series—all with HP Vivera Pigment Inks; also compatible with HP Designjet 5500/5000 Printer series with pigment/UV and dye inks and HP Designjet 4500/4000 Printer series with dye inks

**HP PREMIUM MATTE PHOTO PAPER (210 g/m<sup>2</sup>)** • • • •

The preferred alternative to competitive matte photo papers, this economical, best-in-class, ripple-free paper can support up to 300% ink loads with uniform distribution to provide vibrant color images with superior fade resistance. It dries instantly, allowing images to be laminated immediately, which increases productivity.

- Ideal for prints that require a high ink load and matte finish, such as proofing applications, photo enlargements, art reproductions, displays, presentations, posters and GIS applications
- Compatible with a broad range of dye or pigment/UV ink HP Designjet printers and non-HP large-format printers

**HP EVERYDAY PIGMENT INK SATIN PHOTO PAPER (235 g/m<sup>2</sup>)** • •

This 235 g/m<sup>2</sup> satin photo paper is optimized for pigment inks and designed with “lay-flat technology.” Its microporous surface allows for maximum ink absorption—resulting in vibrant colors, fast dry time and superior fade resistance, all provided at a competitive price.

- Ideal for applications with a satin finish, such as commercial displays, mounted advertisements, presentations, posters, photo enlargements and GIS applications
- Compatible with HP Designjet Z6100 Printer series and HP Designjet Z3200/Z3100/Z2100 Photo Printer series—all with HP Vivera Pigment Inks; also compatible with HP Designjet 5500/5000 Printer series with pigment/UV inks and non-HP large-format printers with pigment inks

**HP EVERYDAY PIGMENT INK GLOSS PHOTO PAPER (235 g/m<sup>2</sup>)** • •

This paper takes everyday glossies to a new level of brilliance. Optimized for pigmented inks, its microporous coating allows for maximum ink absorption. It also dries quickly to provide vivid colors and superior fade resistance at an excellent price-to-performance ratio.

- Ideal for applications with a glossy finish, such as commercial displays, mounted advertisements, presentations, posters, photo enlargements and GIS applications
- Compatible with HP Designjet Z6100 Printer series and HP Designjet Z3200/Z3100/Z2100 Photo Printer series—all with HP Vivera Pigment Inks; also compatible with HP Designjet 5500/5000 Printer series with pigment/UV inks and non-HP large-format printers with pigment inks

**HP UNIVERSAL INSTANT-DRY SEMI-GLOSS PHOTO PAPER (190 g/m<sup>2</sup>)** • • • •

This economical, semi-gloss photo paper is an ideal low-glare solution for quality posters, signs and other large-format graphics. Its microporous coating allows prints to dry instantly for immediate lamination.

- Ideal for high-volume print runs and short-term poster applications such as displays, presentations, posters, photo enlargements and GIS applications
- Compatible with a broad range of pigment/UV or dye ink HP Designjet printers and non-HP large-format printers. Use with pigment inks for longer-lasting prints.

**HP UNIVERSAL INSTANT-DRY GLOSS PHOTO PAPER (190 g/m<sup>2</sup>)** • • • •

Here’s an easy way to save both time and money. This economical, microporous photo paper produces quick-drying images that can instantly go from printer to lamination, making it ideal for an optimized high-volume workflow.

- Ideal for high-volume print runs and short-term poster applications, such as displays, presentations, posters, photo enlargements and GIS applications
- Compatible with a broad range of pigment/UV or dye ink HP Designjet printers and non-HP large-format printers. Use with pigment inks for longer-lasting prints.
